

TO ALL OUR GOOD FRIENDS AND SUPPORTERS:

Just a note of appreciation for the great help with the SAVE THE DEER feeding program. Not only has "my" particular herd been saved from starvation but the message that DEER can and should be fed during periods of extreme stress has been heard thruout the COUNTY, STATE and even INTERNATIONALLY. Many DEER have been and are being successfully fed regularly. "Our" herd is thriving on the donated hay, produce, bakery goods and pellets they receive daily. Most of them have never had it so good!

STATE WIDE we understand approximately 30% of the fawns are now dead. We lost 3 small late fawns early in the program but have not lost a single deer for over a month! The winter is not yet over but I'm convinced the DEER now under our care will make it successfully thru the next few weeks till spring arrives. Without the tremendous community support when the program was first initiated these results would not have been possible.

MANY THANKS TO:

- MAX FOSTER - who really set the wheels in motion when he made a telephone call to Reece Stein, Sports Editor of KUTV, and the great amount of public support following the subsequent T.V. story.
- The BOY SCOUTS - they built and donated the feeding boxes and are still daily sending scouts to help with the feeding program.
- HEBER VALLEY GUN CLUB - for their generous contribution.
- COAST GUARD AUXILIARY - for their support and especially for the use of Larry Winterton's Helicopter for flights over the DEER.
- WASATCH WAVE - for their most generous coverage of the SAVE THE DEER campaign.
- K.L.V.R. - for their many hours of broadcast time referring to our program.
- ROGER SCHWINN - for his extremely professional signs to help identify our location and control the public viewing of the DEER.
- CITY & COUNTY - for their great help in collecting enough Christmas trees to supply the necessary browse for the herd. They eat 10-15 trees daily.
- LIONS CLUB and especially Daryl Shumway for his generous help and liaison with the STATE WILDLIFE.
- STATE WILDLIFE DIVISION - for their support thruout this Valley and State with many herds to support.
- ROTARY CLUB - for their tolerance of my pet project and the many contributions.
- DAYS & SAFEWAYS Markets - for their invaluable discarded produce and bakery items (which the DEER love even better than the pellets!).
- RAY LLOYD - for his every-day physical help with snow removal, feeding and especially his emotional support.
- SPENCE YOUNG - of the Midway Boosters Club for his contributions.
- HAY CONTRIBUTORS - Bill Dudley, Jerry Brisk and many others whom I cannot hope to recall but do sincerely thank.
- KIM WALKER of the J.C. s - for his great efforts.
- ESPECIALLY my wife DARLENE and daughter JILL who do much more of the daily work of feeding than I do.

AND BEST WISHES & THANKS to ALL the unnamed individuals who have contributed and helped in so many ways...and especially those involved in other feeding programs thruout the Valley. i.e. Ron Goden, Lowe, June and Clark Ashton, Joe Dean Huber, JoAnn McNaughton and LeRoy Sweat.

I invite everyone to visit the grounds and see the DEER. We feed at 4-5 P.M. daily and one can get much closer at that time.

Sincerely,

J.D. Boggess
